

HD634170NB Built-in Hob

Gas and induction cooking options right at your fingertips

There's no need to choose between gas and induction heating anymore! This hob gives you the benefits of both, with gas as well as induction cooking zones.

Ignite each zone straight away with just one hand

For maximum control, you can activate and ignite each zone with just one hand. The single-action system on the hob also delivers optimum efficiency and security.

Maximum flexibility during the cooking process

The Stop+Go function reduces all zones to a 'keep warm' setting if cooking is interrupted. Return to cooking, Stop+Go remembers the previously selected setting.

More Benefits :

- Power booster function for fast, intense heat
- Adjustable minute minder (up to 99 minutes)
- Child safety device – ensures the hob stays off

Features :

- Rotary front controls on glass panel
