

EF17**Non-washable filter**

Filter is non-washable

Features :**Technical Specs :**

• DistriCode : 9092880526

Product Description :

The exhaust filter is the final filter that the air passes through before leaving the vacuum cleaner. Cleaning and replacing your filters regularly will help to maintain its best performance. Most of the Electrolux vacuum cleaner can be upgraded with a washable filter with higher level of filtration to leave the air even cleaner and to last longer. Look for reference ESFW1.
